Cork Fabric for Endless possibilities

Cork fabric is a high-quality fabric, produced from thin cork shavings, obtained directly from the bark of the cork oak tree. **Much of the production is hand crafted.**

The innovative characteristics of cork fabric are unique and original.

01 | SELECT THE BACKING

The Fabrics can be produced with different backing materials dependent on final use.

SOFT

Malleable material that allows better molding.
In this backing you can't add color or emboss.
Recommended material to cover umbrellas and clothes.

TEXTILE

Resistant material that allows easy molding.
Water resistant material and it is advisable to cover bags and shoes.
In this backing you can add color and emboss.

COAGULATED

More resistant material and suitable for larger areas.
Recommended material to cover bags and furniture.
In this backing you can add color and emboss.

Soft
to the touch
& pleasant
to the view.

This natural cork fabric, or cork leather as it's often called, is perfect for making bags, wallets or shoes. It's backed with a thin layer of different fabrics similar to a faux leather, depending on the use of it. It's can be thin enough to easily sew on any domestic machine. It's pliable, bendable and easy to cut too! It's very durable, wears extremely well, and doesn't fray.

Cork Fabric is available in a unique assortment of natural textures, patterns, and designs and is produced with different backing material dependent on final use. Cork fabric is usually supplied in rolls 1,40m wide by 20 meters long in natural color. With color, Cork Fabric is usually supplied in rolls 0,70m wide by 10 meters long. Designers, corporate and commercial accounts should contact us for commercial pricing and supply.
